CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based from data in previous chapter and based on the research questions, the researcher was concluded as follow:

1. Based on data in previous chapter ,The result of this study showed that there three types of code mixing often used by English lecturer in teaching Speaking for beginner level there were Intra Sentential Code Mixing,Intra Lexical Code Mixing and Involving Change of Pronunciation

2. Based on previous chapter ,The researcher found the dominant type of code mixing is Intra sentential code mixing that used by English lecturer in teaching speaking for beginner level.

3. Based on interview with the lecturer, the researcher found two l reason of using code mixing by lecturer. The reasons were repetition used clarification and Interjection (Inserting Sentence Fillers or Sentence Connectors)

B.Suggestion

Based on the results of the study and conclusions from the data obtained by the reseracher,the researcher give some suggestions. Some suggestions are pointed to:

1. For readers

For readers,reseracher argues that nowadays learning a new language is very important and the researcher hopes that this research will answer some of the readers questions about code mixing especially in someone's speech

2. For English lecturer

From the data in this study the researcher argues that lecturers often use code mixing because there are some students didn't understand fully English, even though the basic faculty is English, but the use of code mixing in the first semester is very helpful for Students

3. For other researcher

To researcher who will research about code mixing, the researcher hope that this research can provide benefits for further studies and also useful as the refrence in the rsearch. The researcher suggested using other theories in completing the research about code mixing. so that code mixing research is not only found in one theory but also more than one.
