CHAPTER V

CONCLUSION AND SUGGESTIONS

This chapter contains conclusions and suggestions based on data findings and discussions in the previous chapter. Therefore, conclusions and suggestions can be formulated as follows:

5.1   Conclusion

The researcher conclude that analyzed 129 utterances of Ana Santos as the main character in Upgraded Movie, using Joos' (1976) theory only found four types of language styles: formal style, consultative style, casual style, and intimate style. The consultative style was most common with 62 consultative styles used by her co-workers. Factors influencing Ana Santos' language style using Holmes (1992) theory include setting, participant, topic, and function. Participants were the most influential factor, as they can adapt language styles to build compatibility and mutual understanding. The study highlights the importance of understanding the language styles of characters in their everyday lives.

5.2   Suggestions

The researcher hopes that this research can provide useful suggestions and contributions as follow:

5.2.1   For Teachers

It is hoped that this research it becomes a learning resource or reference to be the best alternative way as a guide in teaching,

especially types of language styles. It can be a guide to improving the quality of learning in studying language styles by teachers through movies for those interested in studying types of language styles and use in several different conditions.

5.2.2 For Students

It is hoped that this research can help students understand and study types of language styles through movies so that can be directly applied in everyday life. especially those who are majoring in the English department will have some advantages to start to learn and practice more about using language styles can deeply understand and directly apply in their life so they can use language to communicate well.

5.2.3 For Other Researchers

It is hoped that this research will give motivation for other researchers who wants to discuss more about language style regarding the types of language styles. Apart from that, it is hoped for the next researchers to find language style in other things or different objects.
