

## **CHAPTER IV**

### **FINDINGS AND DISCUSSION**

This chapter will discuss the findings and discussion. This research conducted to investigate the research problem. The findings in this chapter aim to answer the research problems based on the data analysis obtained from each problem formulation, while the discussion in this chapter is more focused on discussing the findings from the data analysis.

#### **A. Findings**

In this chapter, the researcher presented the answers to the problem formulation contained in this chapter. The first problem of this study was to determine the types of slang and abbreviations contained in the Tori Twitter account. The second problem is the intended meanings of the slang and abbreviations used in the Tori Twitter account. The findings of the problems in this study are explained below as follows:

##### **1. The Types of Slang and Abbreviations in the Tori Twitter Account**

###### **a. The Types of Slang in the Tori Twitter Account**

As explained based on Allan and Burridge (2006), there are five types of slang, namely fresh and creative, flippant, imitative, acronym, and clipping. The results of this research were presented in the table below:

Table 4.1 The Types of Slang

No.	The Types of Slang	Frequency
1	Fresh and Creative	18
2	Flippant	7
3	Imitative	2
4	Acronym	7
5	Clipping	6
Total		40

From the table above, it is known that from the five types of slang, there are 40 total data types, including 18 fresh and creative data types, 7 flippant data types, 2 imitative data types, 7 acronym data types, and 6 clipping data types.

**b. The Types of Abbreviation in the Tori Twitter Account**

As explained based on Schendl's theory, there are five types of abbreviation, namely clipping word, blend, acronym, initialism, and contraction. The results of this research were presented in the table below:

Table 4.2 The Types of Abbreviation

No.	The Types of Abbreviation	Frequency
1	Clipping Word	6
2	Blend	34
3	Acronym	4
4	Initialism	22
5	Contraction	55
Total		121

From the table above, it is known that from the five types of abbreviation, there are 121 total data types, including 6 clipping word data types, 34 blend data types, 4 acronym data types, 22 initialism data types, and 55 contraction data types.

## **2. The Intended Meanings of Slang and Abbreviations in the Tori Twitter Account**

### **a. The Intended Meanings of Slang in the Tori Twitter Account**

After the researcher found the types of slang in the tweets of Tori's Twitter account, the researcher examined the meaning of the words intended in the types of slang. The intended meanings in slang on Tori's Twitter account were explained by the researcher as follows:

#### **1) Fresh and Creative**

Based on the theoretical framework and after exploring Tori's Twitter account tweets, researcher found 18 data fresh and creative slang words in the tweets. According to Allan and Burridge (2006), Fresh and creative slang refers to new vocabulary created with imagination and cleverness for informal situations where Generation z uses wordplay such as metaphors or pop culture references to create new meaning. Exemplified by the following:

Data 1

or group of people. It is often used in entertainment, fashion, and social media.

In this sentence, "they look so good" is an expression of praise for the physical appearance of a group of people called "our hariboz". This is a common use of this phrase in an informal context and shows the writer's pleasure in their appearance. The writer of the sentence was very impressed with the physical appearance of "our hariboz" before they left for China for filming.

### 3) Imitative

Based on the theoretical framework and after exploring Tori's Twitter account tweets, researcher found 2 data Imitative slang words in the tweets. Exemplified by the following:

#### Data 1

Corpus : now why did he **poke** his leg like that LMAO

The slang word poke was found on June 26, 2024 in a tweet from Tori's Twitter account. The slang refers to words that are created in a certain form. The sentence above shows the words as Imitative because they describe something in a funny and interesting way.

The word "poke" literally means to feel or touch something. In slang terms, the word "poke" means something that catches someone's attention in an unexpected way or invites attention without being too serious. The term "poke" can also be

used in casual conversation or jokingly as a way to refer to touching someone or giving a light signal.

The word "poke his leg" in the table above refers as a joke to show the action or give a signal to someone indirectly. So, in this sentence, "poke" is used to describe the act of someone nudging another person's leg in order to tease or seek attention. The speaker's reaction ("LMAO") indicates that he or she finds the action funny or silly.

Data 2

Corpus : haobin cheek **poke!**

The slang word "poke" was found on June 15, 2024 in a tweet from Tori's Twitter account. The slang refers to words that are created in a certain form. The table above shows the words as Imitative because they describe something in a funny and interesting way.

The word "poke" literally means to feel or touch something. In slang terms, the word "poke" means something that catches someone's attention in an unexpected way or invites attention without being too serious. The term "poke" can also be used in casual conversation or jokingly as a way to refer to touching someone or giving a light signal.

The word "Poke" in this context refers to the act of lightly poking the cheek. In this case, the word "poke" tries to

imitate the act of directly poking the cheek. This action is often done as a form of affection, playfulness, or an expression of cuteness. The sentence "haobin cheek poke" is a short phrase that describes the action of Hao and Hanbin pinching each other's cheeks. The act of pinching the cheek is described with affection, tenderness, or play. This action can also be a funny or mischievous action.

#### 4) Acronym

Based on the theoretical framework and after exploring Tori's Twitter account tweets, researcher 7 Acronym slang words in the tweets. Exemplified by the following:

Data 1

#### Data 6

Corpus : i found one of hanbin's many birthday **ads** in

hanoy, vietnam !! he is so loved all around the world

The slang word above was found on June 12, 2024 in a tweet from Tori's Twitter account. The word above was ads. In

the sentence "i found one of hanbin's many birthday ads in hanoy, vietnam !! he is so loved all around the world", the word "ads" refers to the birthday ads made to celebrate Hanbin's birthday.

The word "ads" above is a shortened form of the word "advertisements". The word "ads" is often used in a slang context on social media platforms to refer to paid advertisements or promotions. The use of "ads" is usually more concise and sounds more casual than the word "advertisement". On social media, where text space is often limited and communication tends to be brief, the use of slang words such as "ads" helps to speed up understanding and save characters in writing.
